INTRODUCTION

Mohasagor IT Solutions is a dynamic and innovative software company based in Dhaka, Bangladesh. Since its inception, the company has established itself as a trusted partner for businesses seeking to leverage technology for growth and efficiency. With a strong commitment to quality, technical expertise, and client collaboration, Mohasagor IT Solutions provides a comprehensive suite of IT services and custom software solutions designed to meet the unique challenges of a modern business landscape.

Services & Products

Software Development:

Custom Software Development: Tailor-made software to address specific business operational needs. Mobile App Development: Creating high-performance, user-friendly mobile applications for both Android and iOS platforms. Web Development: Designing and developing dynamic, responsive, and SEO-friendly websites, including news portals and portfolio sites.

Business Management Solutions:

Complete E-commerce Solutions: An all-in-one package for setting up and managing online businesses, from storefront design to inventory and sales management. Point of Sale (POS) Software: A robust software solution for managing retail operations, including sales tracking, inventory management, and digital invoicing.

Digital Marketing & Consultancy:

Social Media Marketing: Strategic and authorized ad campaign management on platforms like Facebook to enhance brand visibility and reach. Search Engine Optimization (SEO): Services to improve a website's ranking and visibility on search engines, driving organic traffic. E-Business Consultancy: Expert advice and guidance for businesses looking to establish or improve their online presence and operations.

Web & IT Infrastructure:

Domain & Hosting: Through its subsidiary, Mohasagor Host, the company provides reliable, secure, and fast web hosting services with a 99.9% uptime guarantee and 24/7 expert support. SMS API: Solutions for integrating SMS services into business applications for notifications and communication.

VISION

Making Business Simple and developing a large scale of entrepreneurs.

MISSION

Our mission is to provide dynamic and simplified solutions for complex business problems with state-of-the-art technology and architecture and creating value for customers by leveraging data and analytics. We consult and guide new entrepreneurs to start their businesses properly.

VALUES

Openness: We practice openness in all aspects of our operation with our suppliers, customers and own people.

Diversity: Diversity gives us the strength of facing challenges, and recognize and respect “ways of being” that are not necessarily our own. We believe in diversity in terms of ethnicity, skill, knowledge, and people.

Adhocracy: We practice adhocracy as we believe that it opens the door for creativity and innovations. We also keep focus on adhocracy while designing our solutions.

Innovation: We consider innovation as our habit. We always try to do things and to think in a different way.

Carpet Area: 1580 Square Feet space in one suite. Adequate storage area with full security.

Equipment: Ability to increase computers and infrastructure up to three times upon requirements. Backup power supply, Scanner, Printers, Photocopier.

Communication: Wireless Broadband line for high speed communication Wireless routers, video conference facilities.

Manpower: High skill technical and administrative team with proven professional and academic track records.

CONCLUSION

Great workplaces empower employees and influence greatness. They make people feel connected and inspired. They are places employees want to engage with—not places where engagement is forced upon them. We ensure that environment and that makes all the difference, which leads us to be the safe hand for your IT concern.

WHY? US

Agility

We have created an iterative development process which helps us to respond to new opportunities quickly and communicate with stakeholders effectively.

Transparency

We keep our development process transparent so our clients can know where they are standing at a certain point of time. With visibility, communication and trust we overcome barriers commonly found in traditional work approach.

100+ Happy Clients

We have made more than 100 customers happy by delivering technology solutions which brought results for their business.

Dedicated Developers

We have a dedicated team of expert developers with experience in specific industry domains.

Partnership

We have overcome traditional "client - vendor" relationships to establish friendly partnerships with our clients. 60% of our works come from repetitive clients and referrals from our clients.

5+ Years of Experience

It's been more than 10 years we are developing softwares for clients. It's been more than 5 years now we are working as a registered organization in this market.

Human Centric Designs

We always create designs which are functional, beautiful and easy to understand. We keep our clients business and their customers behaviour in mind.

Personalized Support

Because of the relationships of our clients with us they always got extra care. We provide support not only based on contract but on requests and relationships as well. It's happened a lot that after the end of contracts our clients got help from us because of relationships we have made with them over time.

Thank you!
